Comment : This commenter feels that LPFM should be transferable as any other radio service and should not be limited to any special circumstances. This commenter also believes that LPFM should have primary status to prior-filed FM translator applications as well as existing translator stations. translators are a rebroadcast of a station usually not in the translators city of license making it a non local facility as opposed to LPFM which is local and can report to it's audience information pertaining to it's city of license.
